Attn: Mr. Joseph Hipfel

Re: Status of funds for local share of 1990 State Issue 2 Project

Dear Mr. Hipfel:

This letter is in follow-up to conversations you have had with the Engineering Division regarding the status of the City's matching funds for the 1990 State Issue 2 program.

The local matching share is recommended by the City Manager for funding in the City's 1990 Capital Improvement Program. The funds are coming from Street Improvement Bonds which are scheduled for sale on January 31, 1990.

Very truly yours,

Fa Dowen

F.A. Dawson

he。 a) b)	alth, welfare, and safety of the service area. Where applicable, comment on the following: Overall safety, including accident reduction (Accident reco should be attached, if available). Emergency vehicle response time (fire, police, & medical) Other factors (i.e., fire protection, health hazards, etc.) Additional User Costs - The additional distance and time for users to travel a detour or an alternate route

- 5. Are matching funds available? (i.e. Federal, State, MRF, Local, etc.)

 YES
 To what extent of anticipated construction cost?

 50%
 - List the type and amount of funds being supplied by the local agency. This amount may be from local, Federal, State, Municipal Road Fund (MRF), or other sources. Explain additional funding through other sources being applied for or received for the project. Also, explain any need to accumulate funds for construction at a later date. Complete LOCAL FUNDING SOURCES on Page 6.
 - The local agency shall supply a minimum of 10% of the anticipated construction cost. Additionally, the local agency shall pay for all costs of engineering, inspection of construction, right of way, and the betterment portion of the project. Complete ESTIMATED COST OF PROJECT, on Page 6.
- 6. Has any formal action by a federal, state, or local government agency resulted in a partial ban or complete ban of the use or expansion of use for the involved infrastructure? NO
 - Are there any roads or streets within the proposed project limits that have weight limits (partial ban) or truck restrictions (complete ban)? Have any bridges had weight limits imposed on them (partial ban) or truck prohibitions (complete ban)? Have the issuance of new Building permits been limited (partial ban) or halted (complete ban) because the existing storm/sanitary sewer or water supply system in a particular area is inadequate? Document with specific information explaining what type of ban currently exists and the agency that imposed the ban. NO

- 7. What is the total number of existing users that will benefit as a result of the proposed project? Use appropriate criteria such as households, traffic counts, ridership figures for public transit, daily users, etc., and equate to an equal measurement of users.
 - For roads and bridges, multiply current documented Average Daily Traffic by 1.2 occupants per car (I.T.E. estimated conversion factor) to determine users per day. Ridership figures for public transit must be documented. Where the facility currently has any restrictions or is partially closed, use documented traffic counts prior to restriction. For storm sewers, sanitary sewers, water lines, and other related facilities, multiply the number of households in the service area by four (4) to determine the approximate number of users per day.

ADT = 15,000 USERS = 18,000

- 8. The applicant has conducted a study of its existing capital improvements and their condition. A five year overall Capital Improvement Plan (that shall be updated annually) is attached or on file with the District 2 Integrating Committee for the current year or shall be submitted by March 31 of the program year. The Plan shall include the following:
 - a) An inventory of existing capital improvements, including their condition,
 - b) A plan that details capital improvements needs during the next five years and,
 - c) A list of the political subdivision's priorities in addressing these needs.

The attached Form 1 shall be completed for those projects which are being submitted for Issue 2 funds.

9.	Is the infrastructure to be improved part of a facility that has regional significance? (Number of jurisdictions served, size of service area, trip lengths or lengths of route, functional classification)
	THIS STREET IS PART OF THE FEDERAL AID URBAN SYSTEM AND IS
	CLASSIFIED AS A MINOR ARTERIAL.

		10 points - Bridge, road, storm water. 3 points - All other type projects.
10	2.	If Issue 2 Funds are awarded, how soon after the agreement with OPWC is completed would bids occur?
		10 points - Will be let in 1990 5 points - Likely to be let in 1990 0 points - Not likely to be let in 1990

and/or serviceability of 3. What is the condition infrastructure to be replaced or repaired. For bridges, base condition on latest general appraisal and condition rating.

10 points - Closed

8 points - Extremely Poor

6 points - Poor

4 points - Fair to Poor

2 points - Fair

0 points - Good

Of the total infrastructure within the jurisdiction which is similar to the infrastructure of this project, what portion can be classified as being in poor to very poor in condition, and/or inadequate in service.

10 points - 50% and over

8 points - 40% and over

6 points - 30% and over

4 points - 20% and over

2 points - 10% and over

How important is the project to the health, welfare and safety of the public and the citizens of the district and/or the service area?

10 points - Significant importance

8 points -

6 points - Moderate importance

4 points -

2 points - Minimal importance

6. What is the overall economic health of the jurisdiction?

lo 20 points - Poor

8 16 points -

6 12 points - Fair

4 & points -

2 4 points - Excellent

Are matching funds for this project available? 7. Federal, State, MRF, Local, etc.). To what extent of estimated construction cost?

10 points - More than 50%

8 points - 40-50% and over

6 points - 30-49% and over 4 points - 20-29% and over

2 points - 10-19% and over

56% Construction Costs

59% of total Cost.

6

	8.	Has any formal action by a Federal, State or local governmental agency resulted in a partial or complete ban of the use or expansion of use for the involved infrastructure? This includes reduced weight limits on bridges.
		10 points - Complete ban 5 points - Partial ban 0 points - No action
5	9.	What is the total number of existing users that will benefit as a result of the proposed project. Use appropriate criteria such as households, traffic count, public transit, daily users, etc. and equate to an equal measurement of persons.
		5 points - Over 10,000 4 points - Over 7,500 to 9,999 3 points - Over 5,000 to 7,499 2 points - Over 2,500 to 4,999 1 points - Under 2,449
<u> </u>	10.	Does the infrastructure have regional impact? (May consider size of service area, trip length or total length of route, number of jurisdictions, functional classification, etc.)
		5 points - Major impact 4 points - 3 points - Moderate impact 2 points - 1 points - Minimal impact
